Chorus 1

Girls and boys, make lots of noise
Mom and Dad won't be annoyed
If you Respect Your Toys

Verse 1

Santa Clause comes once a year
He leaves lots of toys, and he spreads good cheer
But when he's gone, they won't last long
If you popm' and you dropm',
they will disappear
If you bangm' and you breakm',
they will disappear

Chorus

Girls and boys, make lots of noise
Mom and Dad won't be annoyed
If you Respect Your Toys

Verse 2

Where do they go? I bet ya' didn't know
Santa's magic takes them to the frosty North pole
The elves don't mind, collecting all they find
And they cleanm and they fixm',
for the very next year
They polish and they wrapm',
for the very next year

Chorus 1

Girls and boys, make lots of noise
Mom and Dad won't be annoyed
If you Respect Your Toys
Girls and boys protect your toys

Verse 3 (Rap breakdown)

Now let's say you break your toys long before their prime
and Santa's magic brings them back for the elves to find
They Collect them and they fixm' so they work just fine
But there's too many toys returning so they fall behind
There's, too many broken toys from the world combined
All those piles of broken toys put the Elves in a bind
If we want to solve the problem then we can't be blind
That we're hurting Santa's home and it's so unkind
It's not too late to change but we're running out of time

Chorus 2

Respect your toys
Protect your toys
Girls and Boys respect your toys
Girls and boys protect your toys

Chorus 1

Girls and boys, make lots of noise
Mom and Dad won't be annoyed
If you Respect Your Toys
Girls and boys protect your toys

Chorus 2 (Sing 2x)

Respect your toys
Protect your toys
Girls and Boys Respect your toys
